WIRE AND NAIL FACTORY IN WADOWICE, POLAND

1. Manpower and Operating Hours

[redacted] there were approximately 500 persons employed at this factory. The factory operated on a 24-hour basis. The shifts were from 0700 to 1500, 1500 to 2300, and 2300 to 0700 hours. All persons employed at this plant belonged to the Trade Union of Local Industry Workers [redacted]

25X1

25X1

2. Factory Location

The factory was located on the southeastern outskirts of WADOWICE (N49-52, E19-30)(UTM CA-9227). (See Annex A for [redacted] location and [redacted] sketch of factory layout, and Annex B for the town plan of WADOWICE.)

25X1

3. Items Produced

25X1

The factory's civilian production consisted of wire, nails, springs and steel beds. [redacted] the factory produced the following items for military use: barbed wire, steel cots, and in May 1958 start of production on an unidentified spring mechanism which was rumored to be for use in an unidentified weapon. [redacted]

Legend to Annex A

1. High tension power line consisting of three cables suspended from wooden poles approximately 15 m high and 50 m apart. This line came from an unidentified thermo-electric power plant located in SIERSZA WODNA in the vicinity of TRZEBINIA (N50-09, E19-27) (UTM CA-9057).
2. Wadowice municipal transformer.
3. Factory transformer.
4. Main entrance and watchman's shack.
5. Unidentified production building, three-story, 20 x 8 x 12 m, of red brick construction.
6. Residential area.
7. Main production building and administrative offices, two-story, 100 x 15 x 8 m, constructed of red bricks with a gray stucco finish. A 10-m-high chimney on the southeast corner of this building was constructed of red bricks.
8. Wire mesh fence, two meters high.
9. Heating plant with a red brick chimney 25 m high.
10. Unidentified warehouse, one-story, 50 x 10 x 3 m, constructed of wood.
11. Unidentified production building and warehouse, two-story, 20 x 20 x 6 m, constructed of red bricks with a gray stucco finish.
12. Loading and unloading ramp, constructed of concrete, approximately 20 m long. It stood adjacent to a railroad spur which led into the factory's yard from the Wadowice railroad siding.
